

Important Message for our UPMC and Highmark Patients

Thank you for entrusting your health care to our practice. We value our relationship with you and want to address some recent patient concerns brought to our attention.

In the past few months, the dispute between UPMC and Highmark has caused significant concern regarding the ability to maintain physician-patient relationships and access to specific healthcare systems. At this time, the news is confusing and often contradictory and the future remains uncertain.

As an independent, privately-owned medical practice, we continue to maintain an excellent relationship with both UPMC and Highmark. We plan to

continue care for
all of our UPMC and Highmark patients

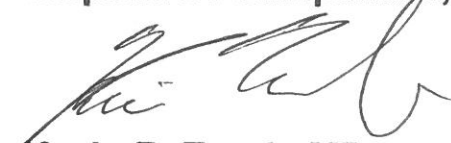

We will work with you to help you get quality hospital care, testing and other specialized care that you may need in the future.

If you have questions, please feel free to talk with us about this issue.
